1. Answer All the Questions
 2. Use a black pen
 3. Each answer should not be more than two pages in length, and each answer should start on a new page.
-

QUESTION ONE

With examples, justify the relevance of Development Studies teaching and learning in the developing country specifically in twenty-first century. **[33 marks]**

QUESTION TWO

Development Studies has both concrete and abstract concepts; indicate how you would make a Form A pupil understand that both concrete and abstract concepts contribute to one's daily living and in country's development processes. **[33 marks]**

QUESTION THREE

- (a) In a lesson on industrialization, derive an activity that can assist pupil's understanding of the concept in the rural and urban areas of Lesotho. All activities should be pupil-based. **[17 marks]**
- (b) Do a very simple summary of the concept "industrialization", your summary should facilitate the understanding of the concept without the teaching and learning activities.

[17 marks]
