

3,668 Basotho cattle were sold for R279,339; 2,600 small stock at R18,174; 92 pigs at R1,007. This was the contribution of your Government to stock farmers. 34 cattle posts of Brown Swiss have been established throughout the country and very soon another will be established at Peka, where the stock farmers will receive service to improve their livestock and also obtain medicines when their livestock is threatened by disease.

Very soon the Post Office will be established at Peka.

Thus you will see that Government is bringing these services to you whenever funds are available. Again I say to you, unity is strength. United we stand and overcome our difficulties. Divided it is only too easy to fall.
