

Moreover, President Kaunda said that he had learned all about Lesotho and he could not be bluffed by anyone about the situation here. He went on to say that there could be no other Government than the present one to lead Lesotho. What I am saying here has been published in the Zambian newspapers and broadcast over the radios. In addition to this, the people of Zambia said they had been deceived for a long time. Now they knew the truth that Leabua's Government was a stable one. I told the people of Zambia that my people had sent me to say that they love one another, even to the least of us.
