In conclusion, I wish to give you the latest information about the proposed hospital to be built here in Quthing. The British Government has authorised a sum of R65,000 for this project this year, and a further provisional R85,000 next year. It is for the Ministry of Health to make use of this money by starting the work as soon as possible. I hope that when this hospital is completed most of your patients will be accommodated in this new hospital.

KHOTSO! PULA!! NALA !!!
