

At no other time in the history of our country - except during this time of E.C.P. politics - have pasture areas for grazing, thatching grass areas, thatching materials in general, including trees and plantations, been destroyed and annihilated.

At no other time in the history of our country - except during the time of these cruel politics of the E.C.P. - have attempts been made to retard conservation works, the planting of trees to combat soil erosion, the building of dams to collect the running rainwater which opens dongas and carries away our most precious soil to the sea.

We Basotho have a wise saying: "Look before you leap".

All that Mr. Ntsu Mokhehle is doing now as a political party leader, he will continue to do even if he becomes leader of the Government.
