Relations with Foreign Governments

Our peaceful relations with 21 foreign governments has
brought us appreciable dividends. We are thus able to obtain
financial aid from the World Bank. Lesotho is a member of the
Organization for African Unity and the Commonwealth.

All this goes to show that actions speak louder than
words. That is why the people are deserting the B.C.F. and the
M.F.P. in such large numbers and in all the 60 constituencies.
These Opposition Parties make empty noises and do nothing
constructive; all they do is to feed the people with false and
worthless utterances.

The question is: are you people of this constituency
satisfied with being made to suck the dummy offered you by the
B.C.F. and M.F.P. parties, while your brothers and sisters in
other parts of the country are deserting them and joining the
ruling Party because of its solid worth? The choice is yours.

One other question is: As a Christian nation, can we
ignore the fact that these Opposition camps of the B.C.F. and
the M.F.P. are known by their public utterances and in their
newspapers to be anti-Christian and attack God's Missionaries
and label them saboteurs and spies. They have said that the
Churches will be turned into cattle kraals or pigsties.

Moreover, they have been sowing seeds of dissension
and hatred among Priests and Christians as well as among the
Churches themselves, although efforts have been made by the
Churches to strive for unity and the oneness of the Church.
In the circumstances, how can a Christian remain a member of the

B.C.F.
